HERITAGE GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW

The Los Angeles County Department of Children and Family Services (DCFS) Out-of-Home Care Management Division (OHCMD) conducted a review of Heritage Group Homes, Inc., (Heritage) in April 2012, at which time they had five six-bed group home sites, each with a licensed capacity for six children, serving boys and girls ages 12 through 17, with a total population of 12 boys and 18 girls. Three sites served girls, and two sites served boys.

The five Heritage group home sites are located in the following areas: two in the First Supervisorial District; one in the Fourth Supervisorial District; and two in the Fifth Supervisorial District, each providing services to DCFS foster youth. According to Heritage's program statement, its stated overall goal is to "enable each child to develop the necessary interpersonal skills and self-esteem to successfully function as a self-sufficient and productive person in society."

For the purpose of this review, seven currently placed children were interviewed and their case files were reviewed. The placed children's overall average length of placement was four months and the average age was 17. Three discharged children's case files were reviewed to determine if they were meeting their Needs and Services Plan (NSP) goals and discharged according to their permanency plan. Three staff files

"To Enrich Lives Through Effective and Caring Service"

were reviewed for compliance with Title 22 Regulations and County contract requirements.

Three of seven sampled children were prescribed psychotropic medication. We reviewed their case files to assess timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm that documentation of psychiatric monitoring was maintained as required.

SCOPE OF REVIEW

The purpose of this review was to assess Heritage's compliance with the County contract and State regulations. The visit included a review of Heritage's program statement, administrative internal policies and procedures, seven currently placed children's case files, three discharged children's case files, and a random sampling of personnel files. Visits were made to the sites to assess the quality of care and supervision provided to children, and we conducted interviews with seven children to assess the care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

Overall, the children interviewed reported they were provided with good care and appropriate services, were comfortable in their environment, and were treated with respect and dignity. Heritage maintained sufficient, age-appropriate recreational equipment in good condition. There was an appropriate quantity and quality of reading material and educational resources.

Our review revealed that Heritage needed some repairs to the exterior and interior of the sites. A few of the deficiencies posed possible safety hazards and could have impacted the well-being of the placed children, yet had not risen to the level of abuse or neglect. These included dangling and loose television and telephone cables at two sites; two smoke detectors that were chirping; a stove top burner that did not light; and the need for Ground Fault Interrupter (GFI) electrical outlets around a vanity sink.

Heritage was receptive to implementing systemic improvements necessary to comply with Title 22 Regulations and the County contract requirements. The Administrator was cooperative and agreed to address the noted deficiencies in a Corrective Action Plan (CAP). Heritage has satisfactorily addressed each of these areas of concern.

NOTABLE FINDINGS

The following were the notable findings of our review:

- DCFS and CCL had substantiated an allegation of General Neglect and CCL cited Heritage as a result of findings during its investigation. The incident involved a child that had been transported to a visit and left with an unapproved party without verifying the identification and without authorization from the Children's Social Worker (CSW). Heritage implemented the requested CAP, including retraining staff in June 2011; developing a new procedure to ensure that all home-pass paperwork is appropriately completed; and directing staff to ask for a government issued identification to verify the child is dropped off with the approved adult.
- Deficiencies regarding the exterior of the sites were noted. The deficiencies included missing window screens and sliding screen doors; and debris alongside one of the homes. In addition, television and telephone leads needed to be secured or relocated. The noted possible safety hazards were discussed with the Administrator and were addressed. Heritage replaced the missing screens, removed the debris and secured the television and telephone leads.
- Deficiencies regarding the common areas of the homes were noted. The deficiencies included: a stove burner, which did not light; peeling paint on hallway cabinets; a loose sink faucet in the children's bathroom; a missing shower door handle; a water-damaged bathroom cabinet mirror; and a broken light switch plate. In addition, two smoke detectors were chirping, a bathroom light was not working, and some living room curtains were damaged. The noted possible safety hazards were discussed with the Administrator and were addressed. Heritage replaced the stove top; refinished the hallway cabinets; installed a faucet in the bathroom; replaced the shower door with a shower curtain; replaced the water damaged cabinet mirror and the broken light switch plate; and repaired the bathroom light. Heritage also replaced the battery-operated smoke detectors with hard-wired smoke detectors.
- In a master bedroom vanity area, standard electrical outlets needed to be replaced with GFI outlets; GFI outlets have been installed.

Each of these conditions were satisfactorily addressed as verified by the Monitor during a follow-up visit to each site on July 11, 2012.

A detailed report of our findings is attached.

EXIT CONFERENCE

The following are highlights from the Exit Conference held June 25, 2012:

In attendance:

Maria Serratos, Administrator; Tami Tutolo, Administrator, Heritage; and Donald Luther, Monitor, DCFS OHCMD.

Highlights:

The Administrator was in agreement with most of the findings and recommendations. During the Exit Conference, she indicated that she welcomes suggestions that assist in improving in areas where needed. She expressed concern that Heritage was required to replace missing sliding screen doors as there had not been patio doors in the past. The Monitor explained that Title 22 Regulations require window screens.

Heritage provided an approved written CAP addressing each recommendation noted in this compliance report. The approved CAP is attached.

We will assess for full implementation of recommendations during our next review.

If you have any questions, please call me or your staff may contact Aldo Marin, Board Relations Manager, at (213) 351-5530.

The following report is based on a "point in time" monitoring visit and addresses findings during the April 2012 monitoring review.

CONTRACTUAL COMPLIANCE

We reviewed seven currently placed children's files, three discharged children's files and five staff files, and/or documentation from the provider. Heritage Group Homes, Inc., (Heritage) fully complied with eight of 10 sections of our Contract Compliance Review: Maintenance of Required Documentation and Service Delivery; Education and Workforce Readiness; Health and Medical Needs; Psychotropic Medication; Personal Rights and Social/Emotional Well-Being; Personal Needs/Survival and Economic Well-Being; Discharged Children; and Personnel Records.

The following report details the results of our review.

LICENSURE/CONTRACT REQUIREMENT

Based on our review of seven children's case files and/or documentation from the provider, Heritage fully complied with eight of nine elements reviewed in the area of Licensure/Contract Requirements.

DCFS and CCL had substantiated an allegation of General Neglect and CCL cited Heritage as a result of the findings. The incident involved a child that had been transported to a visit and left with an unapproved party without verifying the identification of the person and without authorization from the CSW. Heritage

implemented the requested CAP including retraining staff in June of 2011; developing a new procedure to ensure all home-pass paperwork is appropriately completed; and directing staff to ask for a government issued identification to verify that children are dropped off with adults approved for visits.

Recommendation:

Heritage management shall ensure:

1. All sites are in compliance with Title 22 Regulations and the County contract requirements.

FACILITY AND ENVIRONMENT

Based on our review, Heritage complied with three of six elements reviewed in the area of Facility and Environment.

We noted some deficiencies regarding the exteriors of each site. A few window screens were missing, one at the Phillips Ranch site, one at the Valinda site, and one at the La Verne site, all of which have been replaced. Sliding screen doors were missing at the Phillips Ranch and La Verne sites, and have since been replaced. An outdoor patio swing needed reupholstering or removal and debris on the side of the Valinda site needed removal; completed on June 29, 2012. Additionally, television and telephone leads were loose and dangling from the backyard eaves at the La Verne site and a television lead across the base of the patio door at the Valinda site needed to be relocated. Further, the wooden construction around the chimney at the West Covina site was weathered and separated: it was repaired on July 5, 2012. The exterior areas had two deficiencies that posed possible safety hazards of which the Monitor advised the Administrator and were addressed by Heritage. The dangling television and telephone leads were secured, and the lead at the base of the patio door was relocated on July 4, 2012.

There were some deficiencies regarding the common areas of the sites. At the Phillips Ranch site, the right rear burner on the stove top did not light. At the Valinda site, the painted hallway cabinets were peeling and needed to be refinished; they were refinished on July 5, 2012. At the West Covina site, the faucet in the children's bathroom was loose on the vanity, and the shower door handle was missing. The shower enclosure was replaced with a shower curtain on July 3, 2012, and a new faucet was installed on July 4, 2012. At the Whittier site, the smoke detectors in the hallway and in bedroom two were chirping. At the La Verne site, the light over the sink in the bathroom off bedroom one was not working, the medicine cabinet mirror was water-damaged and the light switch plate was broken in the main bathroom. These were repaired on July 4, 2012. The sheer curtain behind the living room curtains was damaged, and a new curtain was installed on June 14, 2012. A few common areas had deficiencies that posed possible safety hazards of which the Monitor advised the Administrator and were addressed by Heritage. A new stove top was installed on

June 7, 2012, new smoke detectors were installed on July 3, 2012, and the broken switch plate was replaced on July 4, 2012.

At the West Covina site the standard electrical outlets around the sink on the vanity in the master bedroom needed to be replaced with GFI outlets. The Monitor advised the Administrator of the concern. The GFI outlets were installed on June 13, 2012.

Each of these conditions was satisfactorily addressed, as verified by the Monitor during a follow-up visit to each site on July 11, 2012.

Recommendations:

Heritage management shall ensure:

2. All window screens and sliding screen doors are maintained, in place, and in good condition.
3. All appliances are in good working condition.
4. The exterior and interior of the facilities are properly maintained and are free of any possible safety hazards.
5. Electrical outlets around sinks and water fixtures are GFI outlets.

FOLLOW-UP FROM THE OHCMD'S PRIOR MONITORING REVIEW

Objective

Determine the status of the recommendations reported in our prior monitoring review.

Verification

We verified whether the outstanding recommendations from our prior review were implemented. The last report was issued September 15, 2011.

Results

The OHCMD's prior monitoring report contained seven outstanding recommendations. Specifically, Heritage was to ensure the exterior of the sites were in good repair; all appliances were in good operating condition; bedroom walls were free of damage and bedrooms had sufficient lighting; recreation equipment was properly maintained and secured; all Needs and Services Plans (NSPs) were comprehensive and include all required elements; all children are provided with sufficient quantities of clothing; and children are encouraged and assisted in developing and maintaining Life Books/Photo Albums. Based on our follow-up of these recommendations, Heritage fully implemented three of the seven recommendations.

Recommendation:

Heritage management shall ensure:

6. Full implementation of the outstanding recommendations from OHCMD's prior Monitoring Report which are noted in this compliance report as Recommendations 2, 3, and 4.
